

## News Brief

### ICL is Proud to Announce 70 Graduates of ACP

ACP (Alternative Certification Program) is facilitated by ICL in partnership with Escambia, Okaloosa and Santa Rosa Counties. ACP participants are hired as a full time teacher by the school district without a traditional teacher education degree. These teachers are in classrooms while they complete the necessary requirements of ACP.

The 70 new teachers listed below completed a ninth month program to earn their professional teaching certification. These teachers worked full time while completing the program. During this year, many served as coaches, club sponsors, and yearbook sponsors; and many are parents, spouses and community members. These 70 early career teachers demonstrated their mastery of the Florida Teaching Standards as well as the tenacity and passion to be effective teachers.

Please join us in congratulating these graduates.
